ABOUT CEMVA

CEMVA-SM Agroindustrial S.A. is a Costa Rican company based in Venecia, Alajuela, specializing in the export of high-quality agricultural products.

With more than 25 years of experience, it has established itself as a leader in the international trade of fruits, tubers, and other fresh produce from the Costa Rican countryside.

Since its inception, CEMVA has worked with a clear vision: to offer sustainable and efficient solutions for foreign trade, guaranteeing products that meet the quality standards required by international markets. Its commitment to excellence and compliance has allowed it to establish strong business relationships with clients around the world.

01.

Coffee

Costa Rica - Colombia

01.

COSTA RICA AND COLOMBIA COFFE

At CEMVA, we are honored to present two extraordinary coffee varieties, meticulously cultivated in the highlands of Colombia and Costa Rica, two emblematic nations whose coffee growing traditions have been carefully preserved and perfected over generations. These privileged regions offer the ideal conditions for the cultivation of superior quality coffee: fertile soils, high altitudes and an exceptional climate that favors a slow maturation of the bean, which allows for the development of complex and distinctive flavor profiles.

Our coffees are not only the result of a meticulous agricultural process, but also of a deep cultural connection and passion for excellence. In Colombia, the coffee plantations extend over majestic mountains, where communities dedicated to the cultivation of coffee have turned this craft into an art, taking care of each plant from planting to harvesting. In Costa Rica, the commitment to sustainable agricultural practices and respect for the environment is reflected in each bean, ensuring an ethical and responsible production that protects both the land and those who work it.

02.

IQF - PINEAPPLE

02.

IQF PINEAPPLE

IQF (Individually Quick Frozen) pineapple is fresh pineapple that has been individually cut and quickly frozen, preserving its natural flavor, texture, color, and nutritional value. Thanks to this process, each piece remains loose, avoiding ice blocks and ensuring practicality and quality for various uses such as juices, desserts, pastries, or direct consumption.

FOR MORE INFORMATION

IQF PINEAPPLE BY AIR

We also offer IQF pineapple by air, ideal for customers who require reduced delivery times without compromising the product's freshness and quality. Air shipping allows pineapple to arrive in optimal condition to high-demand markets, such as hotels, gourmet restaurants, and premium supermarkets, guaranteeing a superior-quality product and maximum freshness at every destination.

04.

**DOUGH AND
FLOUR**

DOUGH AND FLOUR

04.

Dough and flour made from tubers such as cassava, malanga, sweet potato, plantain and yam offer nutritious, gluten-free alternatives for modern cooking. These flours retain the essential nutrients of tubers: they are rich in fiber, complex carbohydrates and minerals such as potassium and magnesium.

Bagged tubers for frying

05.

IQF BAGGED TUBERS FOR FRYING

Bagged tubers for frying are a practical and delicious option. They come ready to fry, saving time in preparation. Their crunchy texture on the outside and soft on the inside make them a perfect accompaniment for meats or as a snack. They keep the natural flavor of the tuber and are easy to cook. They are ideal for those looking for convenience and speed without sacrificing flavor

FOR MORE INFORMATION

05.

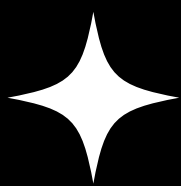

**IQF BAGGED TUBERS
FOR FRYING**

Thanks to the IQF method, each piece remains separate, preventing the formation of ice blocks and facilitating practical use in the food industry, restaurants, and supermarket chains. CEMVA's IQF tubers guarantee consistent quality, freshness, and a long shelf life, ideal for markets that demand natural, ready-to-cook products that meet international standards.

Hygiene products

11.

FEMININE TOWELS

There are three types of sanitary pads: a pack of 10 regular pads, ideal for daily use or moderate flow; a larger pack of 50 regular pads, designed for longer use or heavy flow; and a pack of 8 extra-long nighttime pads, designed to provide maximum protection overnight thanks to their greater coverage and absorbency.

11.

DIAPERS FOR CHILDREN AND OLDER ADULTS

We offer a variety of diapers for both seniors and children, with options to meet a variety of needs. For seniors, we have high-quality diapers, available in 20-count packs, in sizes M, L, and XL, designed for moderate to severe incontinence. These diapers feature high absorbency, a comfortable fit, and leak-proof barriers to ensure safety and comfort throughout the day and night.

For little ones, we have disposable baby diapers in sizes S, M, L, and XL. These diapers are ultra-absorbent, gentle on baby's skin, and feature a wetness indicator for easy changing.

11.

WET TOWELS

Cemva wet wipes are practical and effective products, designed to offer cleanliness and freshness at any time. They are infused with a gentle formula that helps cleanse the skin quickly and conveniently, without the need for water. They are ideal for use on hands, face, and body, providing an instant feeling of freshness.
